## ELECTRIC VEHICLE INFRASTRUCTURE – OUTLOOK FOR NEW MEXICO

### GROWTH IN ELECTRIC VEHICLES DRIVING INFRASTRUCTURE PLANNING IN NEW MEXICO

Electric Vehicles (EVs) are going mainstream. NMDOT expects to receive approximately \$38 million from the federal government between 2022-2026 with a mandated priority to focus investments on Interstate highway locations.

Our speaker will share information from the New Mexico EV Infrastructure Deployment Plan originally published in 2022. This will be one of the most significant infrastructure efforts over the next five years. Are you ready to participate? Attend this webinar to learn more and get ready.
