Timeline/Project Schedule

HEADING

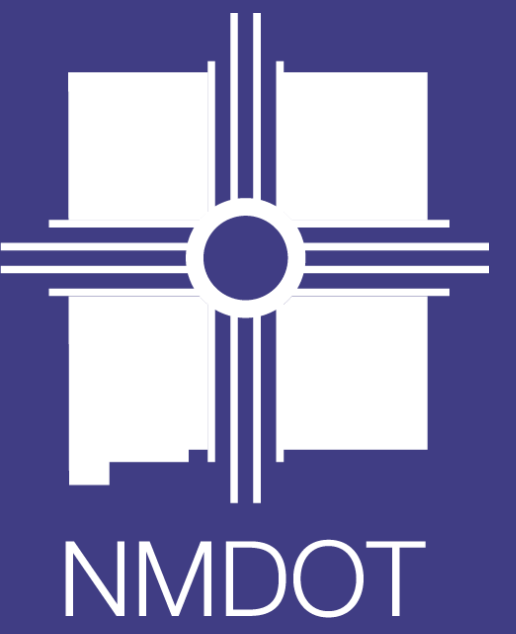

Use this slide layout for any project information that needs to be conveyed. Provide a simple introduction to the project. Content may briefly include:

- » What the project is
- » Where it is located
- » Which agency is leading the work
- » What stage the project is currently in (study, design, construction, etc).

Explain why the project is being studied or implemented. Content may briefly include:

- » Existing issues or conditions
- » Safety and/or mobility needs
- » Environmental or infrastructure considerations
- » Desired long-term outcomes
- » Use icons from the icon library to break up larger blocks of text if needed.

Proposed Improvements

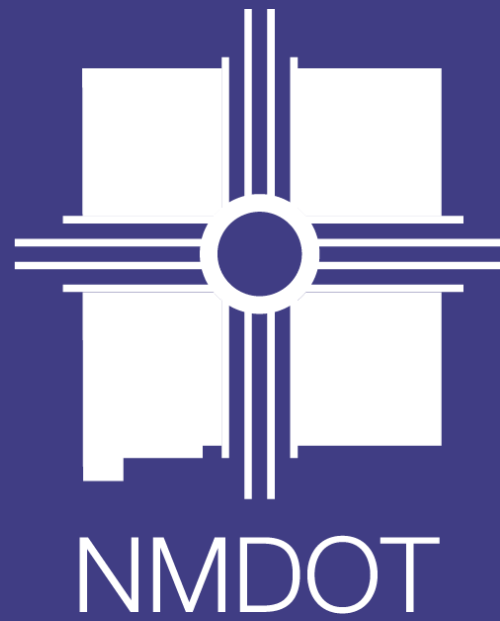

HEADING

Use this slide layout to list/show any planned, proposed or, preliminary improvements for the project, Content may briefly include:

- » Major project elements (ex: bridge replacement, roadway improvements, drainage upgrades, safety features)
- » Brief description of each improvement
- » Use icons from the icon library to break up larger blocks of text if needed.
